

Alkaline Floor Cleaner

30

Code: 14681 2x2L/Case

CHARACTERISTICS:

- Heavy Duty cleaner for daily use.
- Degreasing of stone, tiles, concrete and other hard surfaces.
- Penetrates grease, dirt and debris, and soap scum.

USES:

It is used for the daily cleaning and degreasing of stone, tiles, or other floor surfaces that do not have a waxed finish. Also used for removal of wax and acrylic finishes, and other heavy-duty cleaning.

DIRECTIONS FOR USE:

To be used with the Oasis dispensing system installed and calibrated by your Ecolab representative.

1. Fill the mop bucket with a solution with hot water.
2. Remove mats.
3. Remove coarse dirt and sweep the area completely
4. Apply the solution with a mop
5. Leave the on the floor until it has penetrated the dirt and grease
6. Remove tough stains with a hard bristle brush
7. Remove the solution with a mop
8. Rinse with clean water and air dry

SECURITY WARNING:

Use of this product in its recommended dilution does not present any risk, however, as a rule, Ecolab will provide training on the safe use of this product.

See the Material Safety Data Sheet (MSDS) for further safety precautions.
