

# Odor Counteractants

# 50/52

Product Code: 14685 (Ocean Wave) Case of 2x2L  
14686 (Juniper Splash) Case of 2x2L

## CHARACTERISTICS:

### FOR INDUSTRIAL USE ONLY

Oasis Compac odor counteractants are formulated specifically with long – lasting ingredients to give control of ordinary odors for hours when used as directed in normal circumstances. Oasis Compac odor counteractants are strong air-freshening deodorants for institutional use, formulated for the strongest odors. They are used to neutralize the smell of smoke, tobacco, molds, mildew, urine and many other bad odors. They leave the surfaces and rooms with a clean fresh smell.

## INSTRUCTIONS FOR USE:

To be used with the Oasis dispensing system installed and calibrated by your Ecolab representative.

1. Place the concentrate bottles on the metal rack.
2. Insert the probe in the bottle and close the lid firmly.
3. Fill the sprayer bottle with solution by placing the labeled bottle into the correspondingly labeled dispenser. Click the bottle up into place, and solution will dispense to the correct dilution. When bottle is full, pull straight down from dispenser and replace sprayer nozzle.
4. Adjust the sprayer nozzle to fine mist.
5. Spray the solution in the four corners of the room and the air conditioning vents. Spray and wipe the television screen, ashtrays, garbage cans, inside lamp shades, and other hard surfaces.
6. Clean by rubbing with a clean cloth.

## STABILITY AND STORAGE:

Life in concentrate state: 2 years

## SAFETY PRECAUTIONS:

Use of this product in the recommended dilutions does not present any risk, however, as a rule, Ecolab will provide training on the safe use of this product.

See the Material Safety Data Sheet (MSDS) for further safety precautions.
