

HD Acid Bathroom Cleaner

61

Code: 14691 Packaging: Case of 2x2L

CHARACTERISTICS:

FOR INDUSTRIAL USE ONLY

Heavy duty acid cleaner for bathrooms that removes the toughest dirt and soap scum even hard water deposits without scrubbing. Use on non-porous surfaces such as chrome, furniture, tiles, sinks, shower doors and bathtubs, including porcelain and fiberglass. Non-abrasive, non-scratch. Leaves the surface clean and shiny.

WARNING: Do not use on surfaces finished with PVD (Physical Vapor Deposition)

NOTE: Do not use on natural marble, polished aluminum or cement. It can scratch some very old sinks or bathtubs. If in doubt, prior to use, do a test in an inconspicuous place in. Use only with the sprayer provided. Do not use with other foamers.

INSTRUCTIONS FOR USE:

To be used with the Oasis dispensing system installed and calibrated by your Ecolab representative.

1. Fill the sprayer bottle with solution by placing the labeled bottle into the correspondingly labeled dispenser. Click the bottle up into place, and solution will dispense to the correct dilution. When bottle is full, pull straight down from dispenser and replace sprayer nozzle.
2. Spray the surface to be cleaned with the solution.
3. Rinse, and wipe dry with a clean cloth or sponge.

SAFETY PRECAUTIONS:

Use of this product in the recommended dilutions does not present any risk, however, as a rule, Ecolab will provide training on the safe use of this product.
